Property Division

In California, most marital property must be split 50/50. But determining what counts as community property can be complicated. Let our experienced team ensure your interests are protected, especially when it comes to:

- Real estate
- Retirement accounts
- Business ownership
- Debts and liabilities

Domestic Violence and Restraining Orders

Your safety is non-negotiable. We help clients obtain protective orders quickly and guide them through the legal steps to ensure long-term security.
