What is FastFingers?

FastFingers is an online typing school you can open in any browser — no download, no fee, no sign-up wall. Start with finger placement, move to full English paragraphs, then measure yourself on a timed test and watch the words-per-minute climb.

Learn the correct way

Home-row basics, finger allocation and posture — the habits that decide your ceiling later.

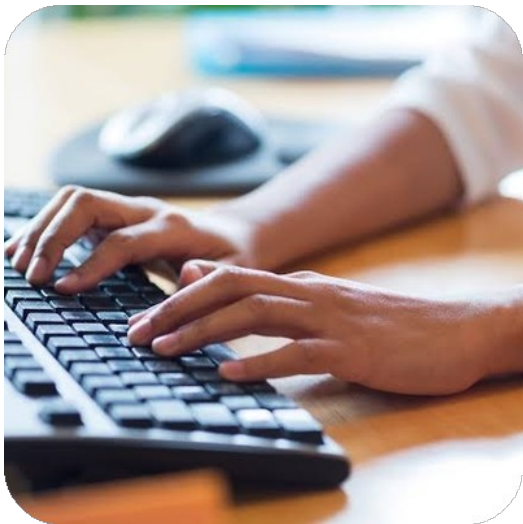

Build speed with drills

Short daily exercises that train rhythm and reflex instead of frantic finger-mashing.

Measure every session

Timed tests report gross WPM, net WPM, accuracy and the exact keys costing you time.

01

Fast Finger English Typing

English typing is a skill of habit, not luck. FastFingers teaches the home row first, hands you real English paragraphs instead of random letters, and keeps every lesson short enough to finish before you lose interest.

- Home-row drills that fix finger placement on day one
- Real sentences with capitals, commas and full stops
- Beginner to advanced lesson ladder, free to use
- Five-minute practice sets you can finish daily

02

Finger Speed

Speed is what you get when movement stops being wasteful. The finger-speed module trains each finger separately, loads the weak ones deliberately, and rewards steady rhythm over panic bursts.

- Per-finger warm-ups for ring and little fingers
- Rhythm drills that stop the stop-start typing habit
- Common letter-pair repetition for muscle memory
- Weekly WPM graph so gains are visible, not guessed

03

Finger Typing Speed Test

A test is only useful if it tells you what to fix. Pick one, two or five minutes, type the passage, and get a full breakdown the moment the clock stops — including the keys that keep tripping you.

- 1, 2 and 5-minute timed tests, no sign-up needed
- Gross WPM, net WPM, accuracy and error count
- Key-level error report showing your problem letters
- Score history to compare this week against last

04

Ten Fast Finger

Ten fast finger typing means all ten fingers working without a single glance at the keyboard. FastFingers builds it in stages, starting with the words you already type most often.

- Touch typing taught in stages — no looking down
- Practice built on the 200 most used English words
- Hindi and English practice passages side by side
- Leaderboard and streaks to keep the habit alive
